Bootstrap 4 Button Groups

❮ Previous Next ❯

Button Groups

Bootstrap 4 allows you to group a series of buttons together (on a single line) in a button group:

Apple Samsung Sony

Use a `<div>` element with class `.btn-group` to create a button group:

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="btn-group"="tagcolor" style="color:mediumblue">>
  <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary"="tagcolor"
style="color:mediumblue">>Apple</button class="tagcolor"
style="color:mediumblue">>
```

PDFmyURL

```
  <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary"="tagcolor"
style="color:mediumblue">>Samsung</button class="tagcolor"
style="color:mediumblue">>
  <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary"="tagcolor"
style="color:mediumblue">>Sony</button class="tagcolor"
style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>
```

Tip: Instead of applying button sizes to every button in a group, use class `.btn-group-lg` for a large button group or the `.btn-group-sm` for a small button group:

Large Buttons:

Apple Samsung Sony

Default Buttons:

Apple Samsung Sony

Small Buttons:

Apple Samsung Sony

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="btn-group btn-group-lg"="tagcolor"
style="color:mediumblue">>
```

style="color:mediumblue">>Apple</button class="tagcolor"
style="color:mediumblue">>
  <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"

Vertical Button Groups

Bootstrap 4 also supports vertical button groups:

Apple
Samsung
Sony

Use the class `.btn-group-vertical` to create a vertical button group:

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="btn-group-vertical"="tagcolor"
style="color:mediumblue">>
  <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary"="tagcolor"
style="color:mediumblue">>Apple</button class="tagcolor"
style="color:mediumblue">>
  <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary"="tagcolor"
style="color:mediumblue">>Samsung</button class="tagcolor"
style="color:mediumblue">>
  <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary"="tagcolor"
style="color:mediumblue">>Sony</button class="tagcolor"
style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>

Nesting Button Groups & Dropdown Menus

Apple Samsung Sony

Nest button groups to create dropdown menus (you will learn more about dropdowns in a later chapter):

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="btn-group"="tagcolor" style="color:mediumblue">>
  <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary"="tagcolor"
style="color:mediumblue">>Apple</button class="tagcolor"
style="color:mediumblue">>
  <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary"="tagcolor"
style="color:mediumblue">>Samsung</button class="tagcolor"
```

```
style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="btn-group"="tagcolor" style="color:mediumblue">>
    <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary dropdown-toggle" data-
toggle="attributevaluecolor" style="color:mediumblue">="dropdown"="tagcolor"
style="color:mediumblue">>
       Sony
    </button class="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="dropdown-menu"="tagcolor" style="color:mediumblue">>
      <a class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="dropdown-item" href="attributevaluecolor"
style="color:mediumblue">="#"="tagcolor" style="color:mediumblue">>Tablet</a

Button Groups Side by Side

Button groups are "inline" by default, which makes them appear side by side when you have multiple groups:

Apple Samsung Sony BMW Mercedes Volvo

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="btn-group"="tagcolor" style="color:mediumblue">>
  <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary"="tagcolor"
style="color:mediumblue">>Apple</button class="tagcolor"

  <button class="attributecolor" style="color:red"> type="attributevaluecolor"
style="color:mediumblue">="button" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary"="tagcolor"
style="color:mediumblue">>Samsung</button class="tagcolor"
