# Bootstrap 4 Collapse

[< Previous](#)[Next >](#)

## Basic Collapsible

Collapsibles are useful when you want to hide and show large amount of content:

[Click Me](#)

### Example

```
<button class="attribute" style="color:red" data-  
toggle="attributevalue" style="color:mediumblue">="collapse" data-  
target="attributevalue" style="color:mediumblue">="#demo"="tagcolor" style="color:mediumblue">>Collapsible</button class="tagcolor" style="color:mediumblue">>  
  
<div class="attribute" style="color:red" id="attributevalue" style="color:mediumblue">="demo" class="attributevalue" style="color:mediumblue">="collapse"="tagcolor" style="color:mediumblue">>
```

```

Lorem ipsum dolor text....
</div class="tagcolor" style="color:mediumblue">>

```

Try it Yourself »

## Example Explained

The `.collapse` class indicates a collapsible element (a `<div>` in our example); this is the content that will be shown or hidden with a click of a button.

To control (show/hide) the collapsible content, add the `data-toggle="collapse"` attribute to an `<a>` or a `<button>` element. Then add the `data-target="#id"` attribute to connect the button with the collapsible content (`<div id="demo">`).

**Note:** For `<a>` elements, you can use the `href` attribute instead of the `data-target` attribute:

## Example

```

<a class="attributeicolor" style="color:red"> href="attributevalueicolor"
style="color:mediumblue">="#demo" data-toggle="attributevalueicolor"
style="color:mediumblue">="collapse"="tagcolor"
style="color:mediumblue">>Collapsible</a class="tagcolor"
style="color:mediumblue">>

<div class="attributeicolor" style="color:red"> id="attributevalueicolor"
style="color:mediumblue">="demo" class="attributevalueicolor"
style="color:mediumblue">="collapse"="tagcolor" style="color:mediumblue">>
Lorem ipsum dolor text....
</div class="tagcolor" style="color:mediumblue">>

```

By default, the collapsible content is hidden. However, you can add the `.show` class to show the content by default:

## Example

```
<div class="attributevaluecolor" style="color:red"> id="attributevaluecolor"
style="color:mediumblue">="demo" class="attributevaluecolor"
style="color:mediumblue">="collapse show="tagcolor" style="color:mediumblue">>
Lorem ipsum dolor text....
</div class="tagcolor" style="color:mediumblue">>
```

## Accordion

Collapsible Group Item #1

Lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.

Collapsible Group Item #2

Collapsible Group Item #3

The following example shows a simple accordion by extending the card component.

**Note:** Use the `data-parent` attribute to make sure that all collapsible elements under the specified parent will be closed when one of the collapsible item is shown.

## Example

```
<div class="attributecolor" style="color:red"> id="attributevaluecolor"
style="color:mediumblue">"accordion"="tagcolor" style="color:mediumblue">>

    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"card"="tagcolor" style="color:mediumblue">>
        <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"card-header"="tagcolor" style="color:mediumblue">>
            <a class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"card-link" data-toggle="attributevaluecolor"
style="color:mediumblue">"collapse" href="attributevaluecolor"
style="color:mediumblue">"#collapseOne"="tagcolor" style="color:mediumblue">>
                Collapsible Group Item #1
            </a class="tagcolor" style="color:mediumblue">>
        </div class="tagcolor" style="color:mediumblue">>
    </div class="attributecolor" style="color:red"> id="attributevaluecolor"
style="color:mediumblue">"collapseOne" class="attributevaluecolor"
style="color:mediumblue">"collapse show" data-parent="attributevaluecolor"
style="color:mediumblue">"#accordion"="tagcolor" style="color:mediumblue">>
        <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"card-body"="tagcolor" style="color:mediumblue">>
            Lorem ipsum..
        </div class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>

<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"card"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"card-header"="tagcolor" style="color:mediumblue">>
        <a class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"collapsed card-link" data-toggle="attributevaluecolor"
```

```

style="color:mediumblue">="collapse" href="attributevaluecolor"
style="color:mediumblue">="#collapseTwo"="tagcolor" style="color:mediumblue">>
    Collapsible Group Item #2
    </a class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> id="attributevaluecolor"
style="color:mediumblue">="collapseTwo" class="attributevaluecolor"
style="color:mediumblue">="collapse" data-parent="attributevaluecolor"
style="color:mediumblue">="#accordion"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body"="tagcolor" style="color:mediumblue">>
    Lorem ipsum..
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>

<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card"="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-header"="tagcolor" style="color:mediumblue">>
    <a class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="collapsed card-link" data-toggle="attributevaluecolor"
style="color:mediumblue">="collapse" href="attributevaluecolor"
style="color:mediumblue">="#collapseThree"="tagcolor" style="color:mediumblue">>
    Collapsible Group Item #3
    </a class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> id="attributevaluecolor"
style="color:mediumblue">="collapseThree" class="attributevaluecolor"
style="color:mediumblue">="collapse" data-parent="attributevaluecolor"
style="color:mediumblue">="#accordion"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body"="tagcolor" style="color:mediumblue">>
    Lorem ipsum..
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>

```

```
</div class="tagcolor" style="color:mediumblue">>
```
