Bootstrap 4 Progress Bars

[< Previous](#)[Next >](#)

Basic Progress Bar

A progress bar can be used to show a user how far along he/she is in a process.

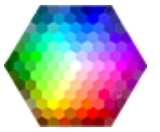

To create a default progress bar, add a `.progress` class to a container element and add the `.progress-bar` class to its child element. Use the CSS `width` property to set the width of the progress bar:

Example

```
<div class="attribute" style="color:red"> class="attributevalue"
style="color:mediumblue">="progress"="tag" style="color:mediumblue">>
  <div class="attribute" style="color:red"> class="attributevalue"
style="color:mediumblue">="progress-bar" style="width:70%"="tag" style="color:mediumblue">></div>
```

COLOR
PICKER

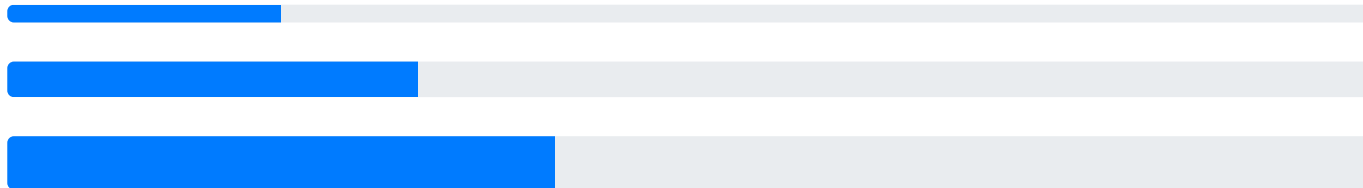

```
class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>
```

Progress Bar Height

The height of the progress bar is 16px by default. Use the CSS `height` property to change it. Note that you must set the same height for the progress container and the progress bar:

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="progress" style="attributevaluecolor"
style="color:mediumblue">="height:20px"="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="progress-bar" style="attributevaluecolor"
style="color:mediumblue">="width:40%;height:20px"="tagcolor"
style="color:mediumblue">></div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>
```

Progress Bar Labels

Add text inside the progress bar to show the visible percentage:

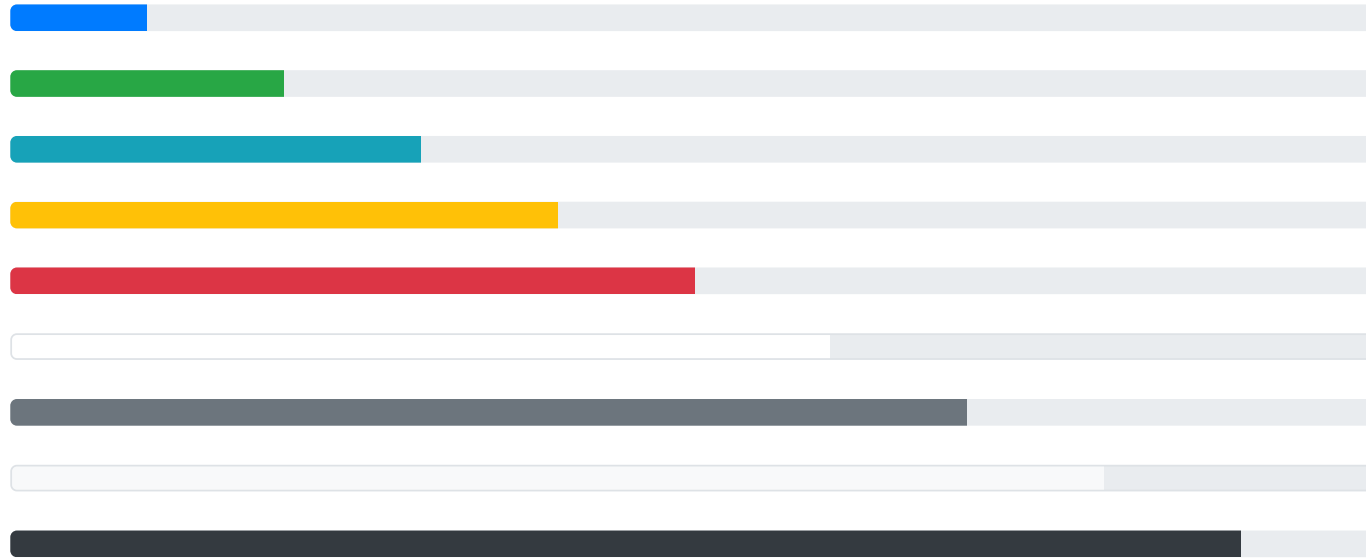

Example

```
<div class="attribute" style="color:red"> class="attributevalue"
style="color:mediumblue">="progress"="tagcolor" style="color:mediumblue">>
  <div class="attribute" style="color:red"> class="attributevalue"
style="color:mediumblue">="progress-bar" style="attributevalue"
style="color:mediumblue">="width:70%"="tagcolor" style="color:mediumblue">>70%
</div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>
```

Colored Progress Bars

By default, the progress bar is blue (primary). Use any of the Bootstrap 4 contextual background classes to change its color:

Example

```
<!-- Blue -->
<div class="attribute" style="color:red"> class="attributevalue"
style="color:mediumblue">="progress"="tagcolor" style="color:mediumblue">>
  <div class="attribute" style="color:red"> class="attributevalue"
style="color:mediumblue">="progress-bar" style="attributevalue"
style="color:mediumblue">="width:10%"="tagcolor" style="color:mediumblue">></div
class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>

<!-- Green -->
<div class="attribute" style="color:red"> class="attributevalue"
style="color:mediumblue">="progress"="tagcolor" style="color:mediumblue">>
  <div class="attribute" style="color:red"> class="attributevalue"
```

```
style="color:mediumblue">="progress-bar bg-success" style="attributevaluecolor"
style="color:mediumblue">="width:20%"="tagcolor" style="color:mediumblue">></div
class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>

<!-- Turquoise -->
<div class="attributeicolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="progress"="tagcolor" style="color:mediumblue">>
  <div class="attributeicolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="progress-bar bg-info" style="attributevaluecolor"
style="color:mediumblue">="width:30%"="tagcolor" style="color:mediumblue">></div

Striped Progress Bars

Use the `.progress-bar-striped` class to add stripes to the progress bars:

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="progress"="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="progress-bar progress-bar-striped"
style="attributevaluecolor" style="color:mediumblue">="width:40%"="tagcolor"
style="color:mediumblue">></div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>
```

Animated Progress Bar

Add the `.progress-bar-animated` class to animate the progress bar:

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"progress-bar progress-bar-striped progress-bar-
animated" style="attributevaluecolor"
style="color:mediumblue">"width:40%"="tagcolor" style="color:mediumblue">></div
class="tagcolor" style="color:mediumblue">>
```

Multiple Progress Bars

Progress bars can also be stacked:

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"progress"="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"progress-bar bg-success" style="attributevaluecolor"
style="color:mediumblue">"width:40%"="tagcolor" style="color:mediumblue">>
    Free Space
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"progress-bar bg-warning" style="attributevaluecolor"
style="color:mediumblue">"width:10%"="tagcolor" style="color:mediumblue">>
    Warning
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">"progress-bar bg-danger" style="attributevaluecolor"
style="color:mediumblue">"width:20%"="tagcolor" style="color:mediumblue">>
    Danger
```

```
</div class="tagcolor" style="color:mediumblue">>  
</div class="tagcolor" style="color:mediumblue">>
```
