Screenreaders

Use screenreader utilities to hide elements on all devices except screen readers.

Hide an element to all devices **except screen readers** with `.sr-only`. Combine `.sr-only` with `.sr-only-focusable` to show the element again when it's focused (e.g. by a keyboard-only user). Can also be used as mixins.

```
                                                                    Copy
<a class="sr-only sr-only-focusable" href=https://getbootstrap.com/docs/4.0/utilit
```

```
                                                                    Copy
// Usage as a mixin
.skip-navigation {
  @include sr-only;
  @include sr-only-focusable;
}
```
