Bootstrap 4 Cards

❮ Previous   Next ❯

Cards

A card in Bootstrap 4 is a bordered box with some padding around its content. It includes options for headers, footers, content, colors, etc.
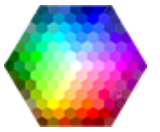

John Doe

Some example text some example text. John Doe is an architect and engineer

Basic Card

A basic card is created with the `.card` class, and content inside the card has a `.card-body` class:

Basic card

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor" style="color:mediumblue">="card"="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor" style="color:mediumblue">="card-body"="tagcolor" style="color:mediumblue">>Basic card</div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>
```

Try it Yourself »

If you are familiar with Bootstrap 3, cards replace old panels, wells, and thumbnails.

Header and Footer

Header
Content
Footer

The `.card-header` class adds a heading to the card and the `.card-footer` class adds a footer to the card:

Contextual Cards

To add a background color the card, use contextual classes (`.bg-primary` , `.bg-success` , `.bg-info` , `.bg-warning` , `.bg-danger` , `.bg-secondary` , `.bg-dark` and `.bg-light` .

Example

Basic card

Primary card

Success card

Info card

Warning card

Danger card

Secondary card

Dark card
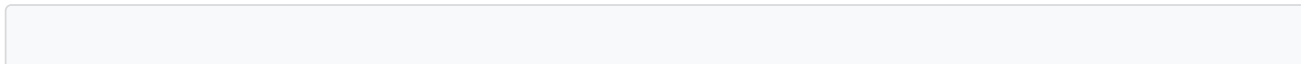

Light card

Titles, text, and links

Card title

Some example text. Some example text.

Card link   Another link

Use `.card-title` to add card titles to any heading element. The `.card-text` class is used to remove bottom margins for a `<p>` element if it is the last child (or the only one) inside `.card-body`. The `.card-link` class adds a blue color to any link, and a hover effect.

Example

```
<div class="card">
  <div class="card-body">
    <h4 class="card-title">Card title</h4>
    <p class="card-text">Some
```

```
example text. Some example text.</p class="tagcolor" style="color:mediumblue">>
    <a class="attributecolor" style="color:red"> href="attributevaluecolor"
style="color:mediumblue">="#" class="attributevaluecolor"
style="color:mediumblue">="card-link"="tagcolor" style="color:mediumblue">>Card
link</a class="tagcolor" style="color:mediumblue">>
    <a class="attributecolor" style="color:red"> href="attributevaluecolor"
style="color:mediumblue">="#" class="attributevaluecolor"
style="color:mediumblue">="card-link"="tagcolor" style="color:mediumblue">>Another
link</a class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>
```

Try it Yourself »

Card Images

John Doe

Some example text some example text. John Doe is an architect and engineer

Jane Doe

Some example text some example text. Jane Doe is an architect and engineer

See Profile

Add `.card-img-top` or `.card-img-bottom` to an `<img>` to place the image at the top or at the bottom inside the card. Note that we have added the image outside of the `.card-body` to span the entire width:

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor" style="color:mediumblue">="card" style="attributevaluecolor" style="color:mediumblue">="width:400px"="tagcolor" style="color:mediumblue">>
  <img class="attributecolor" style="color:red"> class="attributevaluecolor" style="color:mediumblue">="card-img-top" src="attributevaluecolor" style="color:mediumblue">="img_avatar1.png" alt="attributevaluecolor" style="color:mediumblue">="Card image"="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor" style="color:mediumblue">="card-body"="tagcolor" style="color:mediumblue">>
    <h4 class="attributecolor" style="color:red"> class="attributevaluecolor" style="color:mediumblue">="card-title"="tagcolor" style="color:mediumblue">>John Doe</h4 class="tagcolor" style="color:mediumblue">>
    <p class="attributecolor" style="color:red"> class="attributevaluecolor" style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some example text.</p class="tagcolor" style="color:mediumblue">>
    <a class="attributecolor" style="color:red"> href="attributevaluecolor" style="color:mediumblue">="#" class="attributevaluecolor" style="color:mediumblue">="btn btn-primary"="tagcolor" style="color:mediumblue">>See Profile</a class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>
```

Stretched Link

Add the `.stretched-link` class to a link inside the card, and it will make the whole card clickable and hoverable (the card will act as a link):

John Doe

Some example text some example text. John Doe is an architect and engineer

See Profile

Jane Doe

Some example text some example text. Jane Doe is an architect and engineer

See Profile

Example
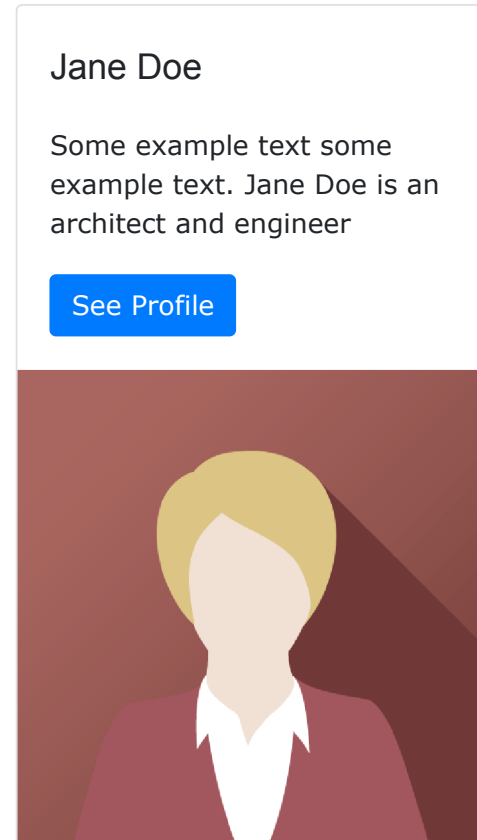

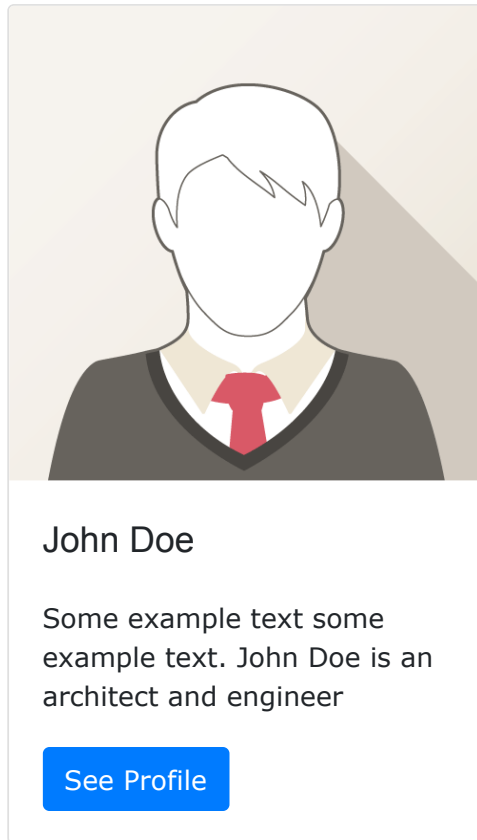

```
<a class="attributecolor" style="color:red"> href="attributevaluecolor"
style="color:mediumblue">="#" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary stretched-link"="tagcolor"
style="color:mediumblue">>See Profile</a class="tagcolor"
style="color:mediumblue">>
```

Card Image Overlays

John Doe

Some example text some example text. Some example text some example text. Some example text some example text. Some example text some example text.

See Profile

Turn an image into a card background and use `.card-img-overlay` to add text on top of the image:

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card" style="attributevaluecolor"
style="color:mediumblue">="width:500px"="tagcolor" style="color:mediumblue">>
  <img class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-img-top" src="attributevaluecolor"
style="color:mediumblue">="img_avatar1.png" alt="attributevaluecolor"
style="color:mediumblue">="Card image"="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-img-overlay"="tagcolor" style="color:mediumblue">>
    <h4 class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-title"="tagcolor" style="color:mediumblue">>John
Doe</h4 class="tagcolor" style="color:mediumblue">>
    <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
example text.</p class="tagcolor" style="color:mediumblue">>
    <a class="attributecolor" style="color:red"> href="attributevaluecolor"
style="color:mediumblue">="#" class="attributevaluecolor"
style="color:mediumblue">="btn btn-primary"="tagcolor"
style="color:mediumblue">>See Profile</a class="tagcolor"
style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>
```
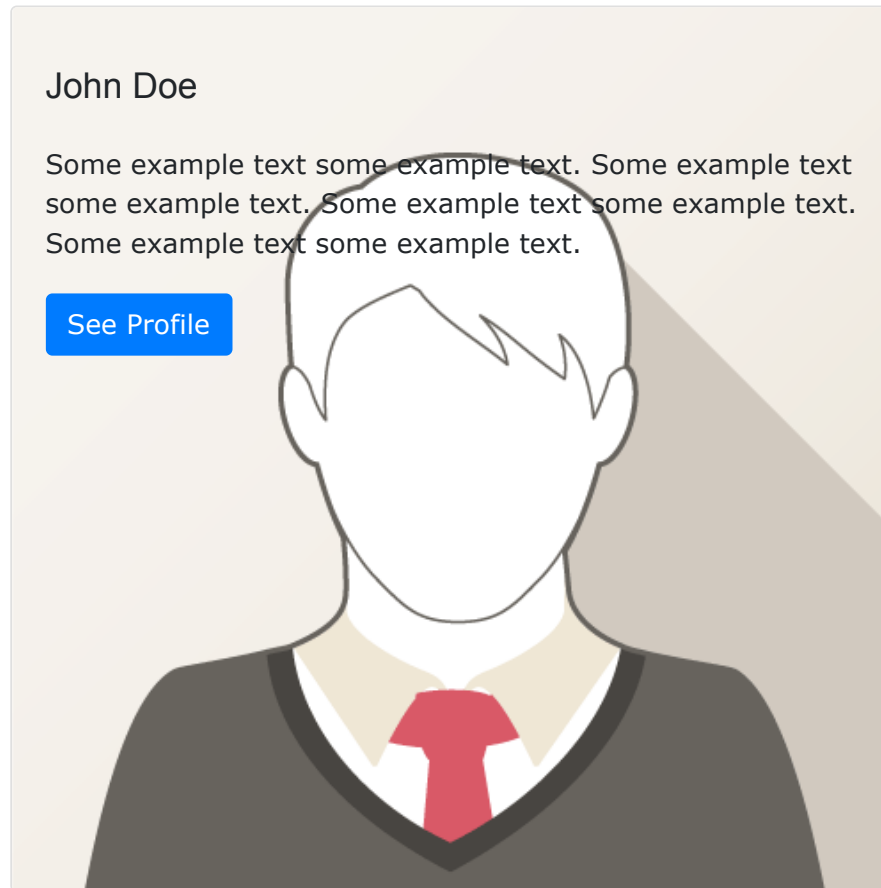

Try it Yourself »

Card Columns

Some text inside the first card

Some text inside the second card

Some text inside the third card

Some text inside the fourth card	Some text inside the fifth card	Some text inside the sixth card

The `.card-columns` class creates a masonry-like grid of cards (like pinterest). The layout will automatically adjust as you insert more cards.

Note: The cards are displayed vertically on small screens (less than 576px):

Example

```html
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-columns"="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-primary"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
      <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the first card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-warning"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
      <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the second card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
```

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-success"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
        <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the third card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-danger"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
        <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the fourth card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-light"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
        <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the fifth card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-info"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
        <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the sixth card</p class="tagcolor" style="color:mediumblue">>
```
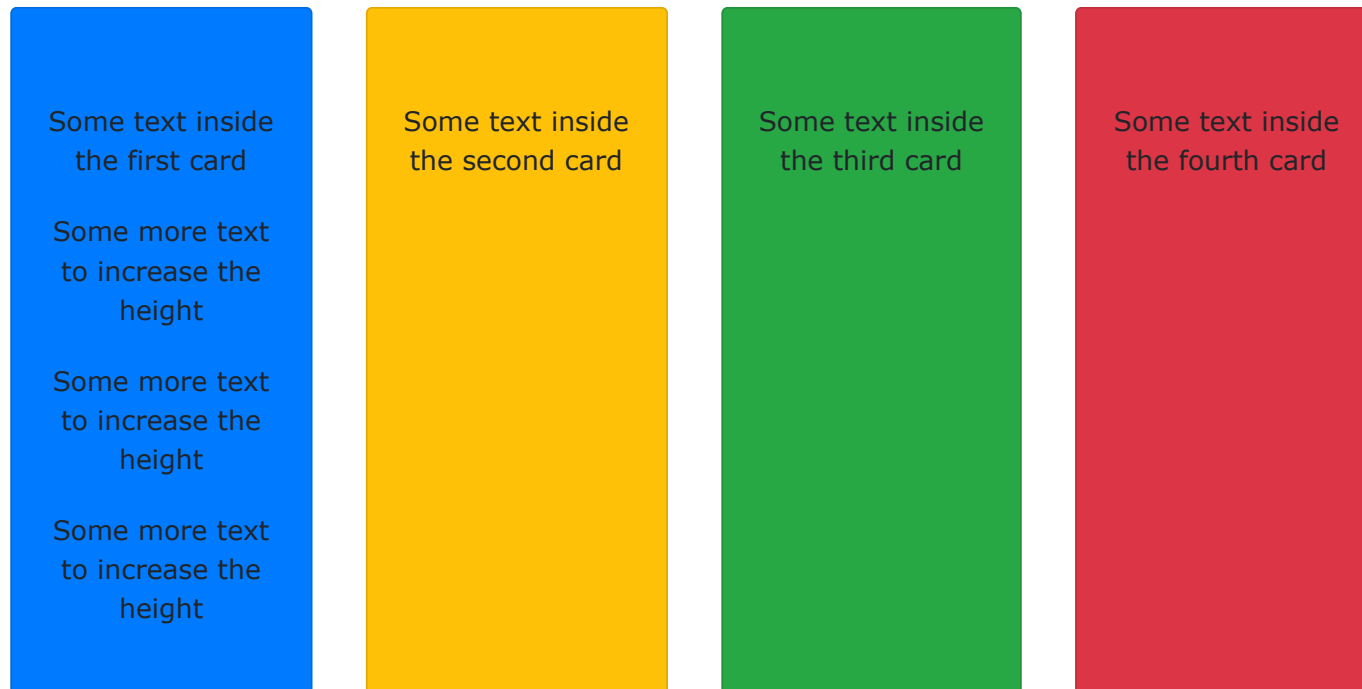

```
        </div class="tagcolor" style="color:mediumblue">>
      </div class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
```

Card Deck

| Some text inside the first card

Some more text to increase the height

Some more text to increase the height

Some more text to increase the height | Some text inside the second card | Some text inside the third card | Some text inside the fourth card |

The `.card-deck` class creates a grid of cards that are of **equal height and width**. The layout will automatically adjust as you insert more cards.

**Note:** The cards are displayed vertically on small screens (less than 576px):

Example

```html
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-deck"="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-primary"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
      <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the first card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-warning"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
      <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the second card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-success"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
      <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the third card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-danger"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
      <p class="attributecolor" style="color:red"> class="attributevaluecolor"
```

```
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the fourth card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>
```

Try it Yourself »

Card Group

Some text inside the first card	Some text inside the second card	Some text inside the third card	Some text inside the fourth card
Some more text to increase the height			
Some more text to increase the height			
Some more text to increase the height			

The `.card-group` class is similar to `.card-deck`. The only difference is that the `.card-group` class removes left and right margins between each card.

Note: The cards are displayed vertically on small screens (less than 576px), **WITH** top and bottom margin:

Example

```
<div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-group"="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-primary"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
      <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the first card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-warning"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
      <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the second card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-success"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
      <p class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the third card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
  <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card bg-danger"="tagcolor" style="color:mediumblue">>
    <div class="attributecolor" style="color:red"> class="attributevaluecolor"
style="color:mediumblue">="card-body text-center"="tagcolor"
style="color:mediumblue">>
      <p class="attributecolor" style="color:red"> class="attributevaluecolor"
```

```
style="color:mediumblue">="card-text"="tagcolor" style="color:mediumblue">>Some
text inside the fourth card</p class="tagcolor" style="color:mediumblue">>
    </div class="tagcolor" style="color:mediumblue">>
  </div class="tagcolor" style="color:mediumblue">>
</div class="tagcolor" style="color:mediumblue">>
```
